

Spreader Bars for Forklift

Forklift Spreader Bars - Proudly operating since the year 1974, ELME Spreader AB is the largest independent spreader manufacturer all over the globe. They have been a devoted maker of spreaders designed for different applications like for example the trailers, handling of containers and swap bodies.

ELME currently has more than a hundred and twenty five personnel with all engineering is done in house by way of using all of the latest CAD systems and FEM tools. Their spreaders are supplied to reach lift trucks, gantry, quayside, ship-to-shore cranes, stackers and straddle carriers around the world.

The ELME product series offers spreaders meant for a variety of trailer and container handling operations. A few of their inventory include: Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes as well as a huge array of additional parts.

ELME production and manufacturing is done in a highly automated purpose built factory. In the year 2008, they made over 1150 spreaders by means of using top quality components to be able to ensure dependability and high standards while offering competitive prices. Major features of ELME include design simplicity, market reaction and innovative modular spreader concept.
