

TCM Forklift Part

TCM Forklift Parts - Forklift trucks are an important player in the material handling field of every global business. Transporting industrial goods takes place each and every day on our hectic world. Initially innovated as industrial vehicles during the 1930s in the United States of America, lift trucks gained recognition following World War II in the 1940s. Becoming a reliable and efficient means to material handling solutions, the need and practicality of these machinery spread worldwide.

First started as Toyo Carrier Manufacturing Company Limited, in 1949, the company was later renamed Toyo Umpanki Co. prior to becoming known as the TCM Corporation. Founded by Mr. N. Niwa manufactured Japan's first forklift. Through the years, TCM lift trucks have become an international leader in forklift manufacturing and have built a solid reputation with the business. TCM started constructing lift truck manufacturing sites outside of Japan during the 1980s and is presently engaged in forklift manufacturer at three foreign factories in the United States, Europe and China.

With more than 50 years of accumulated technology and expertise, TCM has been proudly making various models of industrial trucks, making their models known all over the world. With an energetic and strong employees, TCM has been able to constantly work towards becoming a future leading material handling business.
