

## Meritor Parts

Meritor Part - Meritor is a premier international supplier that is proudly established on a one hundred year custom of quality and service. They specialize in a broad range of integrated systems, modules and parts to original machinery manufacturers and the aftermarket for the transportation and industrial trades.

Meritor prides itself in the company's distinctive energy and believes that this energy contributes to their competitive advantage in the global operations. The business values all of their clients and wants to guarantee their success while anticipating their various requirements. Meritor begins with a tradition which values diversity of people and their broad thought processes. Operating in 19 nations and employing more than 11,200 individuals, Meritor promotes innovation and collaboration among a team of knowledgeable experts.

By just employing future focused workers, Meritor strongly believes these top-caliber people will be able to quickly adapt to changing environments and demonstrate the commitment and performance required to achieve results in the competitive materials handling market. The business empowers their teams to make sound business decisions in order to improve the overall success of the company. In return, Meritor provides all of their employees various possibilities for professional and personal development.

The Advanced Engineering team is on the forefront of components and system engineering. This includes axles, drivelines, braking and suspension systems for heavy duty and medium trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is developing. They started a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives which represent the whole Asia Pacific region. This team is even responsible for supporting the needs of all their global engineering staff.

Meritor's customer focused and dynamic Quality team is committed to ensuring optimum processing at their aftermarket distribution facilities and production plants which are situated around the globe in 19 nations and in 5 different continents.

They have their supplier network which is specifically situated to be able to support the development of the business. Each regional team has globally supported quality systems, initiatives and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a fact-based, data-driven method to decision making in each aspect of the trade. The DFSS or likewise known as Design for Six Sigma ensures product reliability within every region. The team is also included transactional Green Belts who make use of Six Sigma tools to business processes and apply lean methods.
